## WELCOME

It is with great pleasure and a sense of excitement that we welcome you to the Inaugural Carinya Garglen Sale.

The decision to move forward with the sale, has been made primarily with the generations to come in mind. Carinya and Garglen share an undeniable history in the Australian Brahman Breed - 60 years or more in fact. That history is our legacy and we are confident our legacy is in safe hands moving down through the generations. Our secondary reason - "It is just the right time." We feel a strength in the present, and confidence in the future.

With the very first offering, we are confident that our young sires will meet your requirements as they are tailored to suit commercial and stud breeders alike. Their relevance to the entire industry will be evident, both phenotypically and genomically. Raw data plus EBV's are provided to assist with your decision making process. Also, each lot will be either Sire, Dam or fully Parent Verified and all health requirements are covered with bulls having been vaccinated for 7 in 1, BEF, Botulism.

As we know, fertility is one of the two greatest profit drivers in the beef industry. We respect the contribution of our females, and are uncompromising on the quality of replacement females, ensuring they are backed by generations of fertility and performance within the herd. Moderate frame, great udders, long bodied, generous spring of rib, sound structure, and of course her ability to calve every year, are criteria for female selection. We seek that fine balance of type and performance and have a robust but realistic evaluation process when selecting our future breeders.

The second great profit driver of course, is growth. Through strict selection of the correct females and use of industry relevant sires, all progeny are now coming to the forefront for patterns of early growth and ability to do. Our aim is to produce animals that have the ability to meet weight requirements, have a defined muscle pattern and acceptable fat cover at a younger age. Brahman are the common denominator in most crossbreeding operations and of course in purebred herds and must display these characteristics. The end price is important, but it is how quickly and efficiently we get there that defines profit margin. Both these traits, fertility and growth, are obviously connected to structural soundness, adaptability and longevity. With Brahman inhabiting some of the harshest environments in Australia, we must produce structurally sound animals that have the ability to adapt to any environment and have females that will live there and reproduce, for a long time. Our aim is to select for all these criteria, and roll it all into a phenotypically attractive package.

The introduction into both Carinya and Garglen herds, of some very exciting genetics has proven to be extremely beneficial to both herds and we are sure you are anxious to see the results. Famous bloodlines from both Australian breeders and the most influential US herds have been utilized in both breeding programs, leading to an impressive result. We will continue to present you with new and exciting genetics for many years to come -we are committed to client satisfaction. It is so rewarding to be involved in an industry that has been buoyant for some time now, and that continues to become more exciting with every passing year. We plan to share some of that excitement with you at the Inaugural Carinya Garglen Sale.

We look forward to seeing old friends and meeting new ones at The Carinya Garglen Sale, 25th October, 2023 at the Glenlands Sale Complex, Bouldercombe. And remember, if you need any further information, we are only a phone call away. A special thank you must go to Mrs. Childs and the family for allowing use of this wonderful venue.

**A FUTURE BUILT ON HISTORY, PURPOSE, PASSION AND PERSEVERANCE.**

*The Carinya Garglen Sale Team*

*'Welcome' from our families to yours.*

# The pot of gold in is your breeder paddocks

Is there any more glorious sight than a Brahman cow, whether she is heavy with her first calf, on her first spring, or with a sappy calf at foot. These ladies are without doubt our most important asset. Beautiful and versatile, a Brahman female will breed an outstanding calf when used in a purebred operation or crossed with a sire of any chosen breed. She is the main source of the most hybrid vigour input into any crossbreeding program. In fact, did you know that from research data collected, it has been proven that the result of hybrid vigour using a Brahman female as the common denominator is -  
10% Greater fertility, 5% Greater calf survival, 12.5% Greater weaning rate  
Approximately 32 kg greater calf weight at weaning and 37% greater longevity.

This thrifty and efficient Brahman female also has the added advantage of increased heat tolerance compared to most breeds. She will be out grazing, gaining weight, travelling vast areas of country and producing better milk for her calf, while some other breeds will often be lying under a tree or cooling off in a dam, during the long months of heat we experience here.

At Carinya and Garglen, we are extremely proud of our breeding herds. Backed by over 60 years of history, we have been breeding females of uncompromising quality, supported by generations of fertility and performance. Yes – that is 6 decades. It is comforting to know that we have a powerful and predictable genetic base in our beautiful breeders. Our selection criteria for replacement females is unwavering and there are no second chances given.

Our females provide multi generation, breed changing genetics. Both studs have embraced various breeding methods, with natural matings, artificial insemination, embryo transfer, and invitro fertilization. Although natural matings make up the majority of our breeding regime, we consider the use of AI, ET and IVF only maximises the genetic potential of the very best females in the herd. Donors are considered "The Cream of the Crop" and are being utilised to create generations of superior Brahman cattle. We consider the right genetics to be our very best investment and the basis for our future in this fast moving industry.

**"THE POWER IS IN THE COWS"**

**WE WANT WHAT YOU WANT.**

*Fertility, Efficiency, Longevity, Consistency*

HOW TO REGISTER with

## ELITE LIVESTOCK AUCTIONS

Simply go to [www.elitelivestockauctions.com.au](http://www.elitelivestockauctions.com.au) using your desktop, laptop, iPad, iPhone or android device.

Click on the "Sign Up" page / link

Create a bidding profile using the bidder registration page.  
*(You can either register as a livestock agent, company or private buyer)*

Agree to the Elite Livestock Auctions Terms & Conditions and the Selling Agents Sale Terms & Conditions as printed in the official Sale Catalogue

Click "Register"

You will then be notified by email that an account has been created.

Once an account has been created you are all "Set to Bid"

Each Auction can then be viewed by clicking "Live Auction" logo on the Elite Livestock Auctions website.

Once you receive email notification that your account has been created please go to the sale you wish to bid at and click "Request to Bid"

The sale will then approve your application to bid and on the sale catalogue you will see "✓ Bid Request Approved"

On Sale day simply login, click "Enter Auction" on the catalogue page and you can start bidding.  
*(There is no need for software download)*

At the completion of the auction, invoicing will be carried out as per your registration details by the Selling Agents.

# SALE INFORMATION

## INSPECTION

All Carinya Garglen Sale bulls will be at the Glenlands feedlot yards, Glenlands, Bouldercombe, from 26-09-2023, and are available for inspection by appointment only with either vendors or agents. Photos and videos can be viewed through our website – carinyagarglensale.com.au, online catalogue on the Elite Livestock website and the ABBA website online platform. All bulls will be penned for inspection by 6am on sale day 25th October, 2023, and will be ear tagged with their relevant lot numbers for your convenience. Please remember to bring your catalogue along to any inspections.

## REBATES

It has been agreed to offer an outside agent rebate on the terms that the agent introduce themselves and their clients in writing at least 24 hours prior to commencement of the sale, and that the introducing agent attend the sale with their client/clients. That rebate will be at a rate of 2%.

## ONLINE BIDDING

Online bidding is available through Elite Livestock. There are comprehensive instructions included in the catalogue, should you wish to bid online. Phone bidding will also be available via arrangements made with agents prior to sale date.

## HEALTH

All sale lots are Pompes tested free and have been DNA tested for parentage. Relevant vaccines have been administered at the appropriate times, including 7 in 1 vaccine, 3 day vaccine, botulism vaccine. Tick treatments have been arranged for the cattle to enter tick free country immediately post sale.

## SUPPLEMENTARY INFORMATION

All relevant information including morphology results, semen test results, scrotal circumferences, carcass scans, and final weights will be available from 18th October. Contact agents should you require a copy emailed directly or handouts will be available at inspection appointments after that date, and on sale day. EBV's will be provided on a supplementary sheet.

## INSURANCE

We strongly advise that you consider insuring your purchases immediately on closure of the sale. Insurance agents will be present for your convenience. All care is taken, however the Kirk and Bishop families, the selling Agents, property owners and employees of the afore mentioned, take no responsibility for injury or death from fall of the hammer. Please note-any person or persons entering the Glenlands Sale Complex, does so at their own risk and release the owners, vendors and agents from any damage, loss, death or injury incurred whilst attending the sale. This is also the case for any third party entering the complex at arranged inspection times or during time of the sale.

## BREEDING GUARANTEE

All care is taken to guarantee breeding ability of sale lots, with undertaking of morphology testing, crush side semen and evaluation tests. These results will be available on sale day. Carinya and Garglen both offer a full breeding guarantee, if it is proven by way of veterinary certificate within 6 months of the sale date 25/10/23, that there is a fertility or breeding issue with a lot you have purchased. By arrangement, any claim may be replaced by an animal of comparable value, or given as a full credit of the purchase price, less the salvage value of the original animal, at the following annual Carinya Garglen Sale. This guarantee does not cover injury, misadventure, disease, mismanagement or negligence, post fall of the hammer at the Carinya Garglen Sale in the year of purchase.

## DELIVERY

Delivery arrangements are to be made at closure of the sale. Your purchased lots can be trucked to Gracemere saleyards at the vendor's expense for your convenience, but must leave the Glenlands complex by no later than 5.00 pm on Thursday 26th October. All care will be taken in delivery, if by the vendors, but no responsibility accepted.

## HEALTH & SAFETY

Every care has been taken to ensure your comfort and safety whilst attending our sale. Please take care and be aware when moving through the animals. Whilst we take every precaution to minimise hazards, cattle can be unpredictable and have a mind of their own. Children are not permitted in the pens.

# CATALOGUE INFORMATION

## SUPPLEMENTARY SHEET

A supplementary sheet will be provided on sale day which will have EBV's and raw data information collected on each lot.

This information will be available 2 weeks prior to sale date by contacting the selling agents, and will be provided at pre-sale inspections.

## EBV'S

Estimated Breeding Value's are expressed as the difference between an individual animal's genetics and the genetic base or historic genetic level of the population, to which an animal is compared. It is impossible to determine an animal's true breeding value, but it is possible to estimate it. The accuracy value provides an indication of the reliability of the EBV. It is an indication of the amount of information that has been used in the calculation of the EBV.

< 50% = preliminary or low accuracy  
50-74% = medium accuracy  
75-90% = medium to high accuracy  
>90% = high accuracy

## RAW DATA

Raw data is an actual measurement and a proven fact, and all testing has been carried out by a professional in the field of Data Collection. We will provide data for Morphology, Scrotal Measurements, Semen % motile, EMA- Eye muscle area, IMF- Intramuscular fat, Rib fat - measured between the 12th and 13th rib, P8/Rump fat measured between the hip and pin, Weight- date taken will be advertised, and ADWG- Average daily weight gain for whole of life.

## SALE CATALOGUE DISCLAIMER

All reasonable care has been taken by the vendor to ensure that the information provided in this catalogue is correct at the time of publication. However, neither the vendor nor the selling agents make any other representations about the accuracy, reliability, or completeness of any information provided in this catalogue and do not assume any responsibility for the use or interpretation of the information included in this catalogue. You are encouraged to seek independent verifications of any information contained in this catalogue before relying on such information.

## WEIGHTS

A final weight will be taken as close to sale date as possible. ADWG- Average Daily Weight Gain will then be calculated on that weight. Both these figures will be printed on the supplementary sheet.

## SV, DV, AND PV

This determines the DNA testing results for each animal.

SV = Sire has been DNA verified  
DV = Dam has been DNA verified  
PV = Both sire and dam have been DNA verified

## DATA TRANSFER TABLE

On each lot, you will find a table. This is for your convenience to transfer relevant data from the supplementary sheet to the lot page. These figures cannot be added to the catalogue prior to printing due to time restrictions, however we feel it will allow you to transfer figures of importance to lots of interest, and simplify the need to continually refer back to the supplementary sheet.

## QR CODES

You will notice QR Codes throughout the catalogue. By using these codes, you can view a short video of each lot. Some will have other information that we feel is relevant to that lot. Eg. Photo's of Sires, dams etc.

Open the camera app on your phone and hold it over the QR Code. A link will appear on your screen that you can simply tap with your finger to view the video.

*Thank you to*

A special thankyou must go to Mrs. Corinne Whip (Rockemer) of Rinroc Film & Designs, for completing all our graphic design work for advertisements and the catalogue. Your design work (and patience) have been exceptional. Also to Ms. Sara Graffunder for developing our website, and the Graphics team at ABBA for your much appreciated input and finalisation of the catalogue.

## SIRE REFERENCE

### **BRC DUTTON 376/8 (H)**

BRC Dutton 376/8 is one of the most sort after sires in the world at present. Garglen purchased international semen rights in 2019, so it has been a long 4 years waiting for saleable progeny, but well worth the wait. Dutton is without doubt one of, if not the most genetically strong sires that has ever been used in the history of Garglen. A big statement, but the proof is in the progeny. Vigorous from birth, Dutton calves power on, producing top weight gains from weaning and they never look back. Every calf, no matter the breeding of the dam, is stamped by this mighty sire. From their powerful heads through to their impressive body shape, muscle development, correct structure and faultless underlines. Dutton progeny are impressive from birth.

### **CARINYA KIRKWOOD 11/606 (H)**

Carinya Kirkwood is an Australian bred sire that is known all around the world. Have you ever seen a better head on a Brahman Bull? As our wise old fathers taught us, "If the head is good, the rest will follow". Truer words never spoken. Kirkwood progeny, no matter what herd they come from, are all equally impressive. The thickness of body, amount of meat and muscle, structural correctness and great disposition make Carinya Kirkwood progeny a "must see". Put a tick beside these lots. They will not disappoint.

### **WILLTONY BLUNDSTONE 1031 (PS)**

Purchased in partnership with Carinya and Garglen Brahman Studs, Willtony Blundstone 1031 (PS), has been a milestone sire for both herds. He is a big, long, sirey type, producing robust calves that will carry on with the job. Blundstone is just a great "doer". He dominates his females as a bull should, is a great calf getter, but still comes in after the season looking great. He can maintain his mature weight of around the tonne quite easily. Blundstone male progeny have realised exceptional averages for both studs at auction. Females are almost 100% retention for in herd use, as they are just so versatile in any mating program. Blundstone daughters have found the place as donor females at both Carinya and Garglen. At 10 years of age, the old fella has not missed a season yet and joins 60-80 females quite easily. Longevity is in his genes.

### **GARGLEN LEROY X1226 (PS)**

Garglen Leroy is a son of the very successful sire, Willtony Blundstone 1031 (PS). Sons of Blundstone that have sold over the previous 3 years at auction for Garglen and Carinya have realised a very impressive average of just over \$60 000. Leroy was lightly used at Garglen prior to sale in 2021 at RBWS to Kenilworth Brahmans for \$100 000. Leroy proved to be very active and fertile with a 98% conception rate. Mostly polled, with great broad heads, his progeny have fed well and are most presentable with great muscle definition, soft skin and just that instant eye catching appeal.

## SIRE REFERENCE

### **JDH MR ENCINO MANSO 612/6 (H)**

A JDH Hawk Manso 666/5 son and out of a JDH Atlas cow. Carinya purchased the Australian rights in Encino in 2016 and he has certainly made a huge impact on our breeding program. Encino was selected for his bone, length, tidy underline and overall structural correctness- his impeccable temperament is just the bonus. He puts his stamp on all of his progeny, that's for sure!

### **NCC SUGARWOOD 765 (H)**

Sugarwood needs no introduction to the Australian Brahman world, having consistently sired high money earning progeny thus far. He breeds the bone, thickness and scale into his calves, not to mention their temperaments. Sugarwood and his progeny to date have high libidos and are real calf getters. Carinya has retained a number of Sugarwood sires such as Carinya Boynewood (Sire of Carinya Wickham sold for \$110,000) and Carinya Lockwood (Sire of Carinya J Ladbroke It \$130,000 & Carinya Milwaukee - \$105,000). Sugarwood's sons and grandsons have caught the eye of renowned brahman breeders.

### **MR. 4F ACCELERATOR 7/6 (PP)**

Accelerator is a homozygous polled bull that's easy fleshing. He'll add bone, muscle, volume and growth into his offspring. He is a proven sire and terrific phenotypically. For a PP bull he has a lot of thump in him.

### **MORENO MR. POLLED KYROS 571 (PS)**

Moreno Mr. Polled Kyros 571 is a well-balanced beefy polled bull and provides an outcross pedigree to many of today's popular polled lines. He has drawn the interest of some of the most recognised breeders in Australia, the USA abroad. His progeny possess his exceptional temperament, superior carcass traits and clean broad polled head.

# CARINYA M

King Of Leon (AI) (H)

Kicking off the first Carinya Garglen Sale, King of Leon has been a standout since a calf. He has always displayed thickness, great breed character and length and stands on great bone. He has a beautiful head and good testicles and is out of a crowd favourite donor cow. The Encino/Ahern Carson cross; bone, length and frame is a given. A very hard one to sell.

# GARGLEN S

*Conwood* (IVF) (H)

This bull is packing a pedigree – Carinya Kirkwood, JDH Databank, JDH Jene, JDH Massai, JDH Boswick. It is our experience that a bull with this depth of breeding will be genetically strong and prove it in his progeny. Garglen S Conwood is a very stylish bull covered in a smooth silver-grey coat. He has impressive testicular development, backed up by a great semen test and morphology result. Dams first son sold to Raglan Brahmans for \$24,000.

Lot 35

**GARGLEN**  
*Kildare* (AI) (H)

Garglen Kildare is the first son of BRC Dutton to hit the sale ring. He displays the phenotypical traits of Dutton with that amazingly tidy underline, an attractive head, and a big hump that lays on a broad back. Kildare displays excellent maternal traits with generations of great udders on both sides of his pedigree. Top 5% for 200, 400 and 600 day growth, and CWT and top 1% for mature weight.

Lot 36

**GARGLEN**  
*Jericho* (VF) (H)

Another BRC Dutton son displaying those strong characteristics. Jericho is out of Garglen's leading donor in Garglen 346. This female has joined perfectly with Dutton to produce some very high growth, phenotypically attractive progeny. In our opinion, Garglen 346 is the pinnacle of how we want our females to be. Moderate frame, structurally sound with a very correct udder, plenty of pelvic room and so majestic in her appearance and extremely fertile. With his powerful genetics, Jericho is in the top 5-10% for 200, 400, 600 day growth whilst presenting with a very acceptable birthweight.

Lot 37 **GARGLEN S**  
*Big John* (H)

Garglen S Big John, a very appropriate name for this son of Willtony Blundstone. He is certainly an imposing young sire and will command your attention. As with all our Blundstone progeny, Big John sports terrific growth figures, being in the top 5% across the board for 200, 400, 600 day growth, mature weight and CWT. How is that for consistency. This bull will cover all the bases no matter what market you breed for. His powerful, broad polled head is the icing on the cake, so to speak.

Lot 39 **GARGLEN S**  
*Oliver* (IVF) (H)

We reckon this fella will catch your eye from the start. Although fully grey bred, Garglen S Oliver has thrown to the Grulla colouring that turns up every now and then, but it sure does look good on him. From birth, Oliver has been a standout, being a full sib to lot 38, he offers almost identically impressive growth rates. Another son of Carinya Kirkwood, instantly recognisable by his masculine head, he is a powerhouse from nose to toes, which is a long way, as Oliver has extreme length, depth and softness, which all stands on exceptionally good bone. His EBV for RBV is within the top 10% of the breed. Meat and muscle is what we are breeding for after all. Oliver will suit a range of crossbreeding programs.

Lot 40 **GARGLEN**  
*Navajo* (ET) (H)

Garglen Navajo has been a favorite since birth. By NCC El Toro and out of our 'supercow' Garglen S Celine, (a dam with 36 progeny to her name) it is his birthright to be a favorite. His naturally calm disposition makes him a pleasure to work with. But that head – the head of a true Sire, and the rest follows through. He displays outstanding length, great bone and structure, tidy sheath and testicles. Navajo is the complete package and one that is hard to part with. An absolute favorite with the grandchildren.

GARGLEN GRUB (H)

This young son of BRC Dutton will be a tick over 2 years old on sale day. He is transitioning from 'teenager to man' and we think he will be a body builder. He displays that width of back, and amazing rounded hindquarter that you have seen in Dutton. The resultant progeny of the Dutton, Celine lines once again, you can be sure of undeniably strong fertility running in Garglen S Truman's lines.

# WE'VE GOT YOUR BACK

All care has been taken to guarantee breeding ability of sale lots, through use of testing requirements available. However, we know there can be other issues with young bulls. Carinya and Garglen both offer a full breeding guarantee, if it is proven by way of a veterinary certificate within 6 months from the date of the sale, that there is a fertility or breeding issue with a lot you have purchased, provided that issue was not caused by post sale injury, misadventure, disease, mismanagement or negligence.

By arrangement, any claim may be replaced by an animal of comparable value, or given as a full credit of the purchase price, less the salvage value of the animal following the Carinya Garglen Sale. Each lot has been mutually inspected by the vendors and sale agents. All industry standards have been met, along with the high standards we practice within our individual breeding programs. Be assured that we have adhered to stringent breeding principals of producing cattle with good structure, soundness, temperament, bone meat, muscle and volume. We are very proud of the consistency of this group of young sires.

*We Stand 100% behind our Sale Bulls*

# TESTIMONIAL

“Our Family has been buying Carinya bulls for many years and we are extremely pleased with the results.

The Carinya bulls are used as sires to breed our own herd bulls and also replacement females which are put into our commercial herd. Over this long period of time, they have bred many excellent herd bulls and high quality functional females.

Each year we look to add a new sire to our herd and it is always difficult to go past the beef, bone, masculinity and temperament of the Carinya bulls which they consistently bring to the sale.”

Clay Scott  
Ruan Grazing

## POLLED MAP DIAGRAM

Below is a Polled Map Diagram to assist you in understanding the breeding crosses required to breed the degree of the polled gene you are seeking. Industry trends are tending towards poll genetics. At Carinya and Garglen, we are embracing this idea, and are continually searching for exceptional polled sires. Having said that, we will not seek out a single trait on a potential herd sire that does not meet all other criteria requirements first.

Lot 72 **GARGLEN S**  
Kirkman (IVF) (H)

A typical Carinya Kirkwood son in appearance and performance. We are proud to state that Kirkman is in the top 1% of the breed across all growth figures – 200, 400, 600 day and mature weight. Furthermore, he is in the top 2% for CWWT and 5% for RBY. As we know, growth is a key profit driver and with figures like this, Kirkmans progeny will suit any market you choose, be it weaner, feeder or processor markets that you target. Instant eye appeal draws you to this young Stud sire of the future.

Hauser is impressive from the get go. His sire appeal is immediately evident with his broad head and kind eye. The body on this bull follows through as expected from a Dutton son. Garglen 9996, Hauser's dam, is in our donor program and is the dam of many great progeny. Most recently, Garglen Insignia, a son of 9996 was sold at RBWS 2022 for \$45,000. This mix of Sire and Dam produces outstanding growth figures with Hauser in the top 5% across the board for 200, 400 and 600 day growth.

# TESTIMONIAL

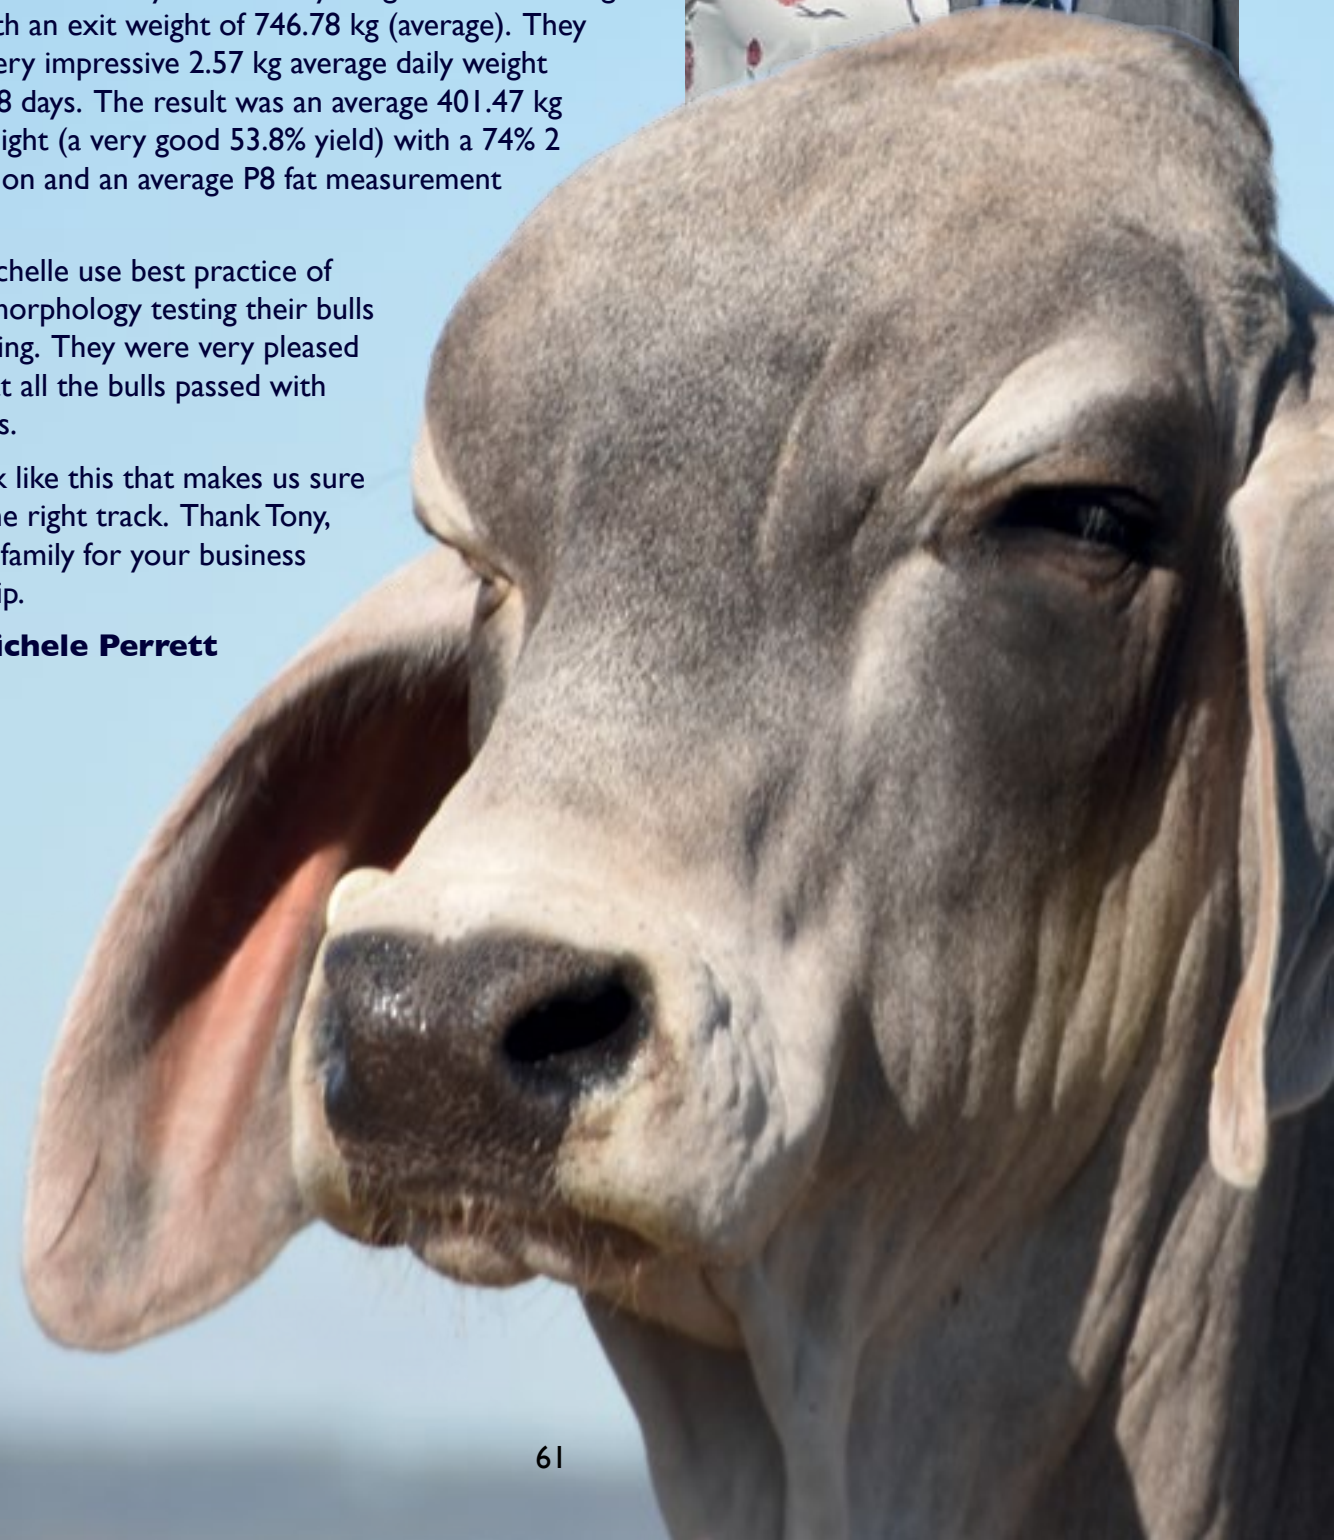

Tony and Michele Perrett and Family, have been long time supporters of Garglen Brahmans and have purchased many bulls over those years. They are currently running 18 Garglen bulls in their herd, based on a large commercial operation at Kilkivan in Southeast Queensland. If the name sounds familiar, Tony is the Shadow Minister for Agricultural, Fisheries and Forestry.

Tony recently reported back to us with some results that they were very happy with, from progeny by Garglen bulls. The Perrett's sold 106 Brahman cross bullocks to Kilcoy Pastoral Company in May 2023. These bullocks were fed at Waterfall Feedlot, Tansey. Their entry weight was 466.72 kg (average) with an exit weight of 746.78 kg (average). They achieved a very impressive 2.57 kg average daily weight gain over 108 days. The result was an average 401.47 kg slaughter weight (a very good 53.8% yield) with a 74% 2 tooth dentition and an average P8 fat measurement of 13.5mm.

Tony and Michelle use best practice of semen and morphology testing their bulls prior to joining. They were very pleased to tell us that all the bulls passed with flying colours.

It is feedback like this that makes us sure we are on the right track. Thank Tony, Michele and family for your business and friendship.

**Tony & Michele Perrett**

*Budweiser* (AI) (H)

Garglen Budweiser is like the ale he is named after – sometimes you just can't have enough. He displays the kind eye and the broad attractive head of his sire, followed up by the much-desired smooth shape from head to tail, great spring of rib, and the sheath of a Dutton son, which is always exceptional. Budweiser's kind nature is an added bonus with this young sire.

FBC Hudson was purchased many years ago, and unfortunately a bull that we lost too soon. But his female progeny that remain in our herd have consistently made their way into our donor program, simply for being the epitome of a Brahman cow. The dam of Guinness is by Garglen Smokin Joe, a son of Hudson that we kept after losing Hudson. With this cow's pedigree, crossed on top by BRC Dutton, we have produced a meat machine. Get behind this boy to appreciate his thickness.

# NO IFS OR BUTTS

*We refuse to compromise Quality for Quantity*

Each lot has been mutually inspected by the vendors and sale agents.

All industry standards have been met, along with the high standards we practice within our individual breeding programs.

Be assured that we have adhered to stringent breeding principals of producing cattle with good structure, soundness, temperament, bone, meat, muscle and volume. We are very proud of the consistency of this group of young sires.

*Elite genetics form when great combinations come together*

# LIVESTOCK AUCTION TERMS AND CONDITIONS OF SALE

## CHAPTER ONE - PRELIMINARY

- A vendor is bound by these terms and conditions by offering livestock for sale by auction.
- An agent (which includes an auctioneer) is bound by these terms and conditions by conducting an auction sale.
- A buyer is bound by these terms and conditions by bidding at auction.
- Competition and Consumer Act (Cth) 2010**  
It is unlawful for parties that are, or otherwise would be, in competition with each other to make, or give effect to, a contract, arrangement or understanding that contains a provision relating to:
  - price-fixing; or
  - restricting outputs in the production and supply chain; or
  - allocating customers, suppliers or territories; or
  - bid-rigging; or
  - collusive bidding.

Large fines and other sanctions may be imposed for unlawful conduct.

- In these terms the expression auctioneer, agent, buyer and vendor respectively includes the servants, contractors and agents of each of them. The auctioneer, agent, buyer and vendor shall be wholly responsible for the acts and omissions of their respective servants, contractors and agents. The term "auctioneer" includes, so far as the law and context permits, the vendor's agent.
  - When used in these terms the expressions "company animals" means all animals originating from the same property on a particular day. Where lots are split and sent to multiple establishments, then all of these animals shall be regarded as companies.
- The following applies in interpreting these terms and conditions:
  - The following words have the following meanings:
 

Fees means all levies, charges, fees, costs and other expenses incurred or relating to these terms and conditions and the sale and purchase of livestock including, but not limited to, transaction levies, yard and weigh dues, cartage, advertising and rebates, and whether paid for, or incurred, by the agent;

Livestock means animals auctioned pursuant to these terms and conditions; and

Price means the amount at which the lot has been sold to the buyer referred to in clause 7 of these terms and conditions

    - plus any Fees and other expenses incurred in relation to the purchase of livestock that are payable by the buyer; and
    - plus any GST added in accordance with clause 12.
  - These terms and conditions are subject to legislation or regulation in the State in which the auction is conducted and in the event of any conflict then the legislation or regulation will prevail. The provisions of these terms and conditions do not derogate from, the duties and rights of vendors, agents and buyers set out in legislation and regulation in the State in which the auction is conducted.

## CHAPTER TWO - STANDARD TERMS OF SALE

- Subject to any reserve price, and to the right, prior to the fall of the hammer, of the vendor to withdraw any lot without declaring the reserve, the highest bidder shall be the buyer.
- The auctioneer has the right to bid on behalf of the vendor provided that right is notified prior to the commencement of the sale and is subject to State law.
- A bid cannot be made or accepted after the fall of the hammer unless, in accordance with clause 5, the auctioneer decides to put the lot up again.
- Prior to the fall of the hammer the auctioneer shall announce the last bid and receive any further bids. The last price called by the auctioneer at the fall of the hammer shall be the amount at which the lot has been sold.
- In the event of a disputed bid, the auctioneer is the sole arbitrator of the successful bidder or the auctioneer may decide to put the lot up again. The auctioneer's decision is final.
- The auctioneer may refuse to accept any bid which, in the auctioneer's opinion, is not in the best interest of the vendor and need not give reasons for doing so.
- A bidder shall be deemed to be a principal unless, prior to bidding, the bidder has given to the auctioneer a copy of written authority to bid for or on behalf of another person.
- The successful bidder at a livestock auction sale must give to the auctioneer at the fall of the hammer:
  - the purchaser's name; or
  - the bid card number which identifies the purchaser; or
  - the name of the person on whose behalf the successful bid was made; and
  - the Property Identification Code (known as the "PIC") of destination.
- The auction shall be conducted on the basis that the bid price shall be exclusive of Goods and Services Tax (GST). GST shall be added after the fall of the hammer for those sales subject to GST.
- The vendor warrants:
  - That the vendor has (or will have) the right to sell the livestock at the time of delivery; and
  - That the purchaser will obtain title on completion of the purchaser's obligations under this contract including payment.
- If a buyer does not comply with any of these terms and conditions, which includes the requirements of State law, the vendor may, at the vendor's option, re-sell the livestock by public auction or private contract in whatever lots and manner the auctioneer decides. The re-sale may be with or without notice and shall be at the buyer's risk. The buyer is responsible for all loss and expense arising out of a re-sale and is not entitled to any resulting profit.
- The buyer of livestock must pay the agent the full amount of the purchase price in immediate funds on receipt of a tax invoice. Payment is required prior to delivery unless some other time for payment is specified in an agreement between the buyer and the auctioneer that was made before the fall of the hammer. If, before delivery, payment has not been made then clauses 20 to 23 apply.
- No person may bid unless, prior to the commencement of the sale, that person has made arrangements satisfactory to the auctioneer for payment for livestock purchased. If bids in breach of this condition are inadvertently accepted, delivery shall not be given until the purchase money is paid and any law, rule or practice to the contrary is accordingly negated as far as possible.
- Cattle sold on a liveweight basis that are weighed pre-sale at the risk and expense of the buyer upon the fall of the hammer.
  - Cattle sold on a liveweight basis that are weighed post-sale at the risk and expense of the buyer immediately after weighing.
  - All livestock other than cattle sold on a liveweight basis are at the risk and expense of the buyer upon the fall of the hammer.
- Subject to this clause the sale is complete on the fall of the hammer.
  - The time for rejection is the time commencing at the fall of the hammer and ending at the first of:
    - delivery is taken by a representative of the buyer;
    - departure of the animal from the purchaser's delivery pen; or
    - one hour after the last animal is:
      - in the case of pre-sale weighing, sold; or
      - in the case of post-sale weighing, weighed.
  - During the time for rejection the buyer may reject any animal which is lame, blind or diseased where that condition existed prior to the fall of the hammer but could not be reasonably observed when the animal was in the selling pen.
  - If the purchaser rejects an animal during the time for rejection then the sale of that animal is cancelled and the animal is returned to the vendor or sold on such terms as any buyer and the agent may agree, after the agent has disclosed the reason for rejection to that buyer.
  - This subclause applies only to cattle which are sold in Queensland at auction for slaughter. The agent has responsibility for the prevention of loss or escape (but not death, sickness or injury) of those cattle from the time of the fall of the hammer, for delivery to and from the scales, to the buyer's delivery pen and onto the buyer's nominated transport. This responsibility ends at the earlier of those cattle boarding the buyer's nominated transport or sunset on the day after the sale. This

subclause does not apply if the agent makes an announcement to that effect prior to sale.

- Subject to the right of rejection in Clause 18, all conditions and warranties expressed or implied by law are hereby excluded from the sale to the extent that the law allows. All lots are open for inspection prior to the commencement of the sale and are sold with all faults, if any. No compensation shall be given for any faults, imperfections, errors of description, number in or of any lots sold or otherwise.
  - Any claim or objection arising out of an error or misdescription in the provision of relevant information in terms of legislation or regulation concerning the National Livestock Identification Scheme (NLIS) must be made by 5:00pm on the seventh day after the fall of the hammer. No objection, requisition or claim against the vendor or agent in respect of such error or misdescription can be made after that time.
  - Any statements made by the vendor or the auctioneer whether in writing or orally to the effect that any female has been pregnancy tested or scanned positive shall mean and require only that a certificate in writing shall be supplied to the buyer signed by a qualified veterinary surgeon or certified scanner certifying that the said female has been tested or scanned on the date specified in the certificate and that in the opinion of the surgeon or scanner was pregnant on that date.
  - For slaughter cattle, the agent undertakes to make every reasonable effort to ensure that any NLIS cattle device number is transferred from the saleyard PIC to the purchaser's PIC on the NLIS database no later than midnight on the day of the sale.
  - For other slaughter livestock the agent undertakes to make every reasonable effort to ensure that the NLIS information is transferred from the saleyard PIC to the purchaser's PIC on the NLIS database no later than midnight on the day of the sale.
  - Where livestock have a food safety or market eligibility status derived from the National Vendor Declaration (NVD) and/or the NLIS/ERP database, the agent will inform the buyers by pre-sale catalogue and/or announce the status prior to the offering of those lots.
- If delivery is made to, or possession obtained by, the buyer or its representative before full payment of the Price, then until full payment is received, the buyer:
  - does not acquire title to the livestock;
  - holds the livestock as bailee only for the vendor;
  - must act in a fiduciary capacity in its relationship with the vendor;
  - must store the stock separately or so that they are readily distinguishable from other livestock owned by the buyer;
  - is responsible for the safety and well being of the livestock;
  - may make a bona fide sale for market value of any or all of the livestock. As between the buyer and the subsequent buyer, the sale shall be made by the buyer in its own name and not as agent for the vendor, however as between the vendor and buyer, the sale shall be made as bailee and agent for the vendor; and
  - must keep and account for the proceeds of any subsequent sale separately from its other money and hold those proceeds, together with the benefits of any rights against subsequent buyers, on trust for the vendor.
- The purchaser agrees that:
  - Clause 20 creates a registrable security interest under the Personal Property Securities Act (Cth) 2009 (PPSA);
  - The Purchaser acknowledges the rights of the Seller (and/or the Agent if Clause 25 applies) to register a financing statement under the PPSA with respect to the security interest created by this clause;
  - the Livestock are collateral for the purposes of the PPSA;
  - to the extent permitted, the Purchaser waives any right the Purchaser has under the PPSA to receive notices; and
  - the date upon which the security interest created by this clause comes into force is the first date on which livestock are delivered pursuant to this contract
- The buyer may not make any claim against the vendor for actions by the vendor or its agent under clauses 20 or 21 and indemnifies the vendor and its agent against any loss, damage, costs, expenses, penalties, fines or claims suffered by the vendor, the agent or any person or entity arising from the vendor exercising its rights under clauses 20 or 21.
- Clause 23 applies whenever the agent pays the vendor before being paid by the buyer, which the agent is not bound to do. The agent is then the del credere agent of the vendor at law.
- The vendor hereby gives notice to the buyer of the assignments referred to in clause 23.3.
- When this clause applies, in addition to any rights of the agent that arise by operation of the law, the parties agree that, subject to clause 23.3 the agent is subrogated to all rights of the vendor under these terms and conditions against the buyer.
- The vendor acknowledges that the agent may take enforcement, repossession or other action to recover any livestock for which the buyer has not paid in full, or the Price of such livestock, owing by the buyer under these terms and conditions:
  - when this clause does not apply, as agent of the vendor (including by reselling the livestock); and
  - when this clause applies, on the agent's own behalf exercising the rights of the vendor by subrogation or assignment under these terms and conditions and in the vendor's name or not) and where the livestock has not passed to the agent, by selling the livestock as agent of the vendor without the agent having to account to the vendor for the proceeds of sale.
- The agent may at any time, assign, transfer, securitise or otherwise dispose of all or any of its rights under these terms and conditions and any debts created pursuant to it (including, without limitation, the rights assigned to it under clause 23.3).
- The vendor hereby irrevocably appoints the agent as the vendor's attorney to:
  - do at any time and in any manner as the agent thinks fit all acts necessary or desirable to perfect or improve the rights and interests afforded, or intended to be afforded, to the agent under these terms and conditions; and
  - appoint one or more sub-attorneys to do anything that the agent may do as the vendor's attorney.
- These terms and conditions do not render the agent liable to the buyer as vendor nor entitle the buyer to set off against the agent any right the buyer may have against the vendor or otherwise.
- The buyer acknowledges that the provisions of this clause 23 are intended solely for the benefit of the agent (and its assigns) and the vendor. The liabilities and obligations of the buyer will not be in any way affected:
  - by this clause 23, other than as it expressly provides; or
  - by the failure of the agent or the vendor or either of them to comply with the terms of this clause 23.
- The buyer must pay all amounts payable to the vendor or the agent under these terms and conditions without any deduction, withholding, set off or counterclaim whatsoever, whether the benefit of a deduction, withholding, set off or counterclaim is alleged to exist in favour of the buyer as against the vendor or the agent in any capacity whatsoever or any other person including any assignor of the vendor's or the buyer's interests under these terms and conditions.
- The agent agrees that he is liable to pay to the vendor the Price, less such commission as is agreed between the vendor and the agent, and in the absence of any agreement such amount as is reasonable, and less the Fees that are payable by the vendor that were incurred by the agent on behalf of the vendor in relation to the sale of the livestock.
  - In the event that the buyer pays the Price or part of it direct to the vendor then the agent has no liability to the vendor for the amount of such payment. Further, if the agent pays the vendor any amount which the buyer also pays direct to the vendor in respect of the same livestock, then the vendor must repay the agent that amount and the agent may debit that amount to an account held in the name of the vendor by the agent.
  - Regardless of whether or not a sale has occurred the agent may, but is not under obligation to do so, instead of deducting payments owed to it by the vendor, debit the amount of the commission and fees to an account held in the name of the vendor by the agent.
- The auctioneer has been retained by the vendor as auctioneer for the purpose of selling the livestock comprised in the lots. The terms of

engagement between the auctioneer and the vendor do not extend to the provision of advice by the auctioneer to the vendor in relation to the safety or otherwise of the sale ring, the saleyards and the surrounding environments.

- The vendor, the agent and the buyer agree to comply with their several duties under the Australian Animal Welfare Standards and Guidelines for the Land Transport of Livestock and further to consign, manage, receive, transport and handle livestock in accordance with any other or additional requirements of animal welfare legislation specific to the jurisdiction in which livestock are consigned, managed, received, transported and handled in the course of the auction process.

## CHAPTER THREE - VENDOR WARRANTY FOR CORRECT PRESENTATION AND DECLARATION

- This chapter applies only in the case of livestock and their companion animals sold at auction for slaughter when the buyer is the slaughterer and the livestock are transported direct from the sale yard to the meatworks at which they are slaughtered. This chapter does not apply if the buyer is a trader who subsequently resells the livestock to a slaughterer. A slaughterer is any person who pays the AMPC Processor levy.
- The warranty of a vendor is that livestock and their companion animals offered for sale at auction:
  - pass government and other regulatory authority requirements and inspections at the time of slaughter;
  - are of merchantable quality;
  - carry an NLIS device in accordance with State law;
  - in the case where a representation has been made in the pre-sale catalogue that the livestock have particular characteristics or are fit for a particular purpose or market, and such representations are based on information in: any document, the livestock will have those characteristics or will be fit for the particular purpose or market; and
  - all information in any document provided by the vendor is true, complete and correct in all material respects.
- In the event of a breach by the vendor of the vendor's warranty and provided such breach is notified by the buyer to the agent by 5:00pm on the 7<sup>th</sup> day after the fall of the hammer then the buyer is not liable to pay the portion of the Price of such of the vendor's livestock to which the breach applies.
- However if the breach by the vendor is such that the livestock are not rejected outright but are instead downgraded then the buyer will pay the value of the livestock at their next highest and best use.
- In the case of a breach by the vendor of the vendor's warranty then the vendor will also be liable to the buyer for any further losses which the buyer might establish but the buyer will take all reasonable steps in co-operation with the agent and vendor to mitigate both the effect of the breach and the amount of any loss.
- Where a sentinel animal of a lot tests positive for chemical residue, or foreign material contamination and provided such test is certified and notified as required by these vendor warranty terms, then:
  - the buyer will be entitled to delay payment for the price of all livestock in that lot only; or
  - the vendor has the option, at the vendor's cost, of collecting the companion animals, if allowed by law, or of having the livestock slaughtered in which event the risk of further condemnations will be that of the vendor. Where product integrity is potentially jeopardised, the Processor has the right to refuse slaughter and send the livestock back to the consigning property at the vendor's cost.
- The auctioneer is liable to the buyer in respect of any breach of the vendor's warranty arising out of:
  - any error, by the auctioneer, of transcription of information from the NVD completed by the vendor to the pre-sale catalogue or the buyers post-sale summary;
  - any failure by the auctioneer to notify the buyer, prior to bidding, of any breach by the vendor of the warranty of the vendor if the buyer establishes that the agent knew of such breach prior to the sale; and
  - any failure by the auctioneer to announce prior to bidding, or disclose in the pre-sale catalogue, that the vendor has failed to provide a NVD that is complete in all material aspects.

## CHAPTER FOUR - OWNERS RISK FOR CONDITION OF CATTLE

- This chapter applies only in the case of cattle and their companion animals sold at auction for slaughter when the buyer is the slaughterer and the cattle are transported direct from the sale yard to the meatworks at which they are slaughtered. This chapter does not apply if the buyer is a trader who subsequently resells cattle to a slaughterer. A slaughterer is any person who pays the AMPC Processor levy.
- Owners risk reflects the producer's responsibility to provide slaughter cattle for sale that are fit for human consumption. Cattle are fit for human consumption if they are not condemned as unfit by government. Owners risk applies if the condemnation is due to a condition in the animal which the buyer establishes, by the relevant government certificate, existed prior to the fall of the hammer.
- A buyer with the benefit of owners risk protection is not liable to pay the Price of that animal to the vendor. The buyer remains nevertheless liable for all costs incurred after the fall of the hammer in transport, slaughter, testing and disposal of the animal.
- Owners risk protection is available to the buyer of cattle to which this chapter applies if all of the following are satisfied:
  - a certificate is issued by government which states the relevant NLIS RFID tag number and PIC, the date of the certificate, the reason for condemnation and that the reason for condemnation existed prior to the fall of the hammer;
  - the certificate is received by the selling agent either in its original form or by fax or electronic communication in the form of data, text or imaging by 5:00pm on the 7<sup>th</sup> day after the fall of the hammer; and
  - if the condemnation is due to chemical residue the certificate follows testing in a government approved laboratory which establishes the maximum residue limits in excess of the Australian limit.
- Owners risk does not apply, and the buyer must pay for the cattle, if the reason for condemnation is any of bruising, fever, partial condemnation or emaciation.

## CHAPTER FIVE - NOTICES REQUIRED BY LEGISLATION

- NSW Property, Stock and Business Agents Act 2002 Warnings**
- Penalties for collusive practices. It is an offence against the Property, Stock and Business Agents Act 2002 for a person to do any of the following as a result of a collusive practice, or to induce or attempt to induce another person by a collusive practice to do any of the following:
- to abstain from bidding; or
  - to bid to a limited extent only; or
  - to do any other act that might prevent free and open competition.
- Severe penalties may be imposed on persons convicted of collusive practices.
- The auctioneer has the right to make one bid on behalf of the vendor if the auctioneer clearly and precisely announces that fact prior to the sale.
- Tasmania Legislation** An auctioneer conducting a public auction must not appear to acknowledge the making of a bid if no bid was made. A person must not participate in collusive practices by way of making or receiving an unlawful promise to abstain from bidding, not to bid except to a limited extent or to do anything which may prevent free and open competition.
- WA Auction Sales Act 1973 s31 NOTICE.**
- It is an offence to:
- induce or attempt to induce another person to abstain from bidding by means of a promise, expressed or implied, that the other person will have the right to elect to take over as buyer or to toss or draw lots to establish who is to become the owner;
  - abstain or agree to abstain from bidding as a result of such a promise;
  - knowingly enter or permit or cause to be entered in the auctioneer's record any name other than that of the actual successful bidder;
  - enter in the auctioneer's record the name of the buyer other than that of the actual successful bidder; or
  - in the case of successful bidder supply wrong information as to the name of the buyer to the auctioneer or to any person, firm or corporation on whose behalf the sale is conducted.
- The vendor, or any person on behalf of the vendor, or the auctioneer have the right to make no more than three bids.
