WELCOME

In 2023 we welcomed you to the 'Inaugural' Carinya Garglen Sale. We now wish to welcome you to the 'Annual' Carinya Garglen Sale. We are feeling somewhat more relaxed, now the first one is over, however the anticipation levels have not changed. Speaking of the Inaugural Sale, we were pleased with the 2023 sale results in what was a very difficult time within the industry. Who would ever have imagined that cattle prices would have fallen so hard and so fast, adding to the mix, the dry conditions at the time and the rising interest rates. What a combination! But we came through it well, which we believe is testament to the cattle we presented to you, and the wonderful support from our industry peers.

The Kirk and Bishop families each have a history within the Brahman breed that has moved well into the 6th decade. Yes — over 60 years of experience, expectation and reputation that is surely an indication of our dedication to consistently focus on stud and commercial industry relevance, growth, and fertility. This is the basis of our philosophy that is "not negotiable", that has held us in good stead and will remain with us well into the future. A future that we have so much confidence in and embrace wholeheartedly. This year, we will again present 85 young grey sires, suitable for all aspects of the beef industry.

They will appeal to stud breeders whilst maintaining that very necessary and compulsory commercial relevance. We can assure you that the phenotypic presence of these bulls – that instant eye appeal, is backed up well and truly by the figures, both raw data and EBV's, which are provided on supplementary sheets. We hope you have an enjoyable day at the Annual Carinya Garglen Sale 2024,

in the beautiful surrounds of the Glenlands complex.

A FUTURE BUILT ON HISTORY, PURPOSE, PASSION AND PERSEVERANCE.

The Carinya Garglen Sale Team

What is a Seedstock Producer

WE ARE COMMERCIAL CATTLE PRODUCERS, WHO BREED STUD CATTLE.

WE ARE RECORD KEEPERS, WITH AN EYE FOR DETAIL.

WE REGISTER CATTLE WITH AN ASSOCIATION BECAUSE WE HAVE RECORDED THEIR GENETIC HISTORY FOR AT LEAST SIX GENERATIONS.

WE ARE OVER-ACHIEVERS WHO LOVE A CHALLENGE.

WE ARE OBSESSED WITH WHAT WE DO, PERFECTIONISTS THAT STRIVE TO ACHIEVE THE NEXT BEST THING.

If we are not all these things, we will not survive in the Seedstock industry. Cattlemen and women can be assured that we are producing the desired product, backed with the correct information, presented to you from producers with integrity and a solid reputation within the industry.

Stud and commercial producers are constantly demanding a better product, particularly in the Brahman breed. We as seedstock producers are offering all the information and technology we have available to us, at quite a considerable cost, financially and physically, so be assured that we are not going to waste our hard-earned money and time on producing an inferior animal. Good bulls are a big investment, but those bulls will be the best investment you will make for production of a better and more valuable result. The quality and production within your herd will alter quickly and the increase in your returns will be considerably noticeable when you choose to make that investment.

As 'the old ways' have progressed from a time when you bought a bull purely on phenotype, we are presently embracing the technology available, whilst still maintaining 'the old school standards'. We will present you with all the scientific and raw data we have at hand, enabling you to make an informed decision on both phenotype and genotype, before purchasing a sire.

Technology can present a plethora of information for buyers. Raw data is a "fact", a physical measurement taken by a professional in that field - totally reliable information. Scientific data should be researched and fully understood by both producer and buyer, or misinterpretation of that information can lead to a very different outcome from the one anticipated.

This industry is demanding so much, so quickly from Brahman seedstock producers, that we would be foolish not to continually invest heavily in genetics as well as embrace the technology available, to produce what you as buyers are demanding from us as Seedstock producers. Carinya and Garglen are doing just that.

HOW TO REGISTER with

Follow these easy steps to start bidding:

Visit <u>www.stocklive.com.au</u> using your desktop, laptop, iPad, iPhone or Android device. NO App required.

Select the bid icon beside the sale you wish to bid on.

If you're new, select **register**, and complete the form with all your details, **accept sale conditions**, select **create bidder registration**.

You will receive an email from StockLive. Select "Confirm my bidding account" to set your password and accept Bidder Account Terms & Conditions and Privacy Policy followed by create my account.

Congratulations! Your StockLive account has been created and your bid request is pending. You will be notified via email when your request to bid has been approved.

Existing users, follow steps 1 & 2, select login, enter your details followed by the request to bid icon beside the sale you wish to bid on and then accept the terms.

On Sale Day, follow steps 1 & 2, select **enter auction** to watch, listen and purchase when the sale is flashing **LIVE**.

Invoicing and delivery will be carried out as per your registration details by the respective Selling Agents.

CATALOGUE

SUPPLEMENTARY SHEET

A supplementary sheet will be provided on sale day which will have EBV's and raw data information collected on each lot.

This information will be available 2 weeks prior to sale date by contacting the selling agents, and will be provided at pre-sale inspections.

EBV'S

Estimated Breeding Value's are expressed as the difference between an individual animals genetics and the genetic base or historic genetic level of the population, to which an animal is compared. It is impossible to determine an animal's true breeding value, but it is possible to estimate it.

The accuracy value provides an indication of the reliability of the EBV. It is an indication of the amount of information that has been used in the calculation of the EBV.

< 50% = preliminary or low accuracy 50-74% = medium accuracy 75-90% = medium to high accuracy >90% = high accuracy

RAW DATA

Raw data is an actual measurement and a proven fact, and all testing has been carried out by a professional in the field of Data Collection. We will provide data for Morphology, Scrotal Measurements, Semen % motile, EMA- Eye muscle area, IMF- Intramuscular fat, Rib fat- measured between the 12th and 13th rib, P8/Rump fat measured between the hip and pin, Weight-date taken will be advertised, and ADWG- Average daily weight gain for whole of life.

SALE CATALOGUE DISCLAIMER

All reasonable care has been taken by the vendor to ensure that the information provided in this catalogue is correct at the time of publication. However, neither the vendor nor the selling agents make any other representations about the accuracy, reliability, or completeness of any information provided in this catalogue and do not assume any responsibility for the use or interpretation of the information included in this catalogue. You are encouraged to seek independent verifications of any information contained in this catalogue before relying on such information.

WEIGHTS

A final weight will be taken as close to sale date as possible. ADWG- Average Daily Weight Gain will then be calculated on that weight. Both these figures will be printed on the supplementary sheet.

SV. DV. AND PV

This determines the DNA testing results for each animal.

SV = Sire has been DNA verified
DV = Dam has been DNA verified
PV = Both sire and dam have been DNA verified

DATA TRANSFER TABLE

On each lot, you will find a table. This is for your convenience to transfer relevant data from the supplementary sheet to the lot page. These figures cannot be added to the catalogue prior to printing due to time restrictions, however we feel it will allow you to transfer figures of importance to lots of interest, and simplify the need to continually refer back to the supplementary sheet.

QR CODES

Below is a QR Code that will lead you to our Youtube playlist, where you can view brief video's and information for each respective lot.

Open the camera app on your phone Hold phone over the QR Code Tap on the link when it appears This will take you to our Youtube playlist Tap on the lots you wish to view

SALE INFORMATION

INSPECTION

All Carinya Garglen Sale bulls will be at the Glenlands feedlot yards, Glenlands, Bouldercombe, from 04/10/2024, and are available for inspection by appointment only with either vendors or agents. Photos and videos can be viewed through our online catalogue on the Stocklive website and the ABBA website online platform. All bulls will be penned for inspection by 6:30am on sale day 29th October, 2024 and will be ear tagged with their relevant lot numbers for your convenience. Please remember to bring your catalogue along to any inspections.

REBATES

It has been agreed to offer an outside agent rebate on the terms that the agent introduce themselves and their clients in writing at least 24 hours prior to commencement of the sale, and that the introducing agent attend the sale with their client/clients. That rebate will be at a rate of 2%.

ONLINE BIDDING

Online bidding is available through Stocklive. There are comprehensive instructions included in the catalogue, should you wish to bid online. Phone bidding will also be available via arrangements made with agents prior to sale date.

HEALTH

All sale lots are Pompes tested free and have been DNA tested for parentage. Relevant vaccines have been administered at the appropriate times, including 7 in 1 vaccine, 3 day vaccine, botulism vaccine and 3 germ blood. Tick treatments have been arranged for the cattle to enter tick free country immediately post sale.

SUPPLEMENTARY INFORMATION

All relevant information including morphology results, semen test results, scrotal circumferences, carcass scans, and final weights will be available from 21st October. Contact agents should you require a copy emailed directly or handouts will be available at inspection appointments after that date, and on sale day. EBV's will be provided on a supplementary sheet.

INSURANCE

We strongly advise that you consider insuring your purchases immediately on closure of the sale. Insurance agents will be present for your convenience. All care is taken, however the Kirk and Bishop families, the selling Agents, property owners and employees of the afore mentioned, take no responsibility for injury or death from fall of the hammer. Please note-any person or persons entering the Glenlands Sale Complex, does so at their own risk and release the owners, vendors and agents from any damage, loss, death or injury incurred whilst attending the sale. This is also the case for any third party entering the complex at arranged inspection times or during time of the sale.

BREEDING GUARANTEE

All care is taken to guarantee breeding ability of sale lots, with undertaking of morphology testing and crush side semen and evaluation tests. These results will be available on sale day. Carinya and Garglen both offer a full breeding guarantee, if it is proven by way of veterinary certificate within 6 months of the sale date 29/10/24, that there is a fertility or breeding issue with a lot you have purchased. By arrangement, any claim may be replaced by an animal of comparable value, or given as a full credit of the purchase price, less the salvage value of the original animal, at the following annual Carinya Garglen Sale. This guarantee does not cover injury, misadventure, disease, mismanagement or negligence, post fall of the hammer at the Carinya Garglen Sale in the year of purchase.

DELIVERY

Delivery arrangements are to be made at closure of the sale. Your purchased lots can be trucked to Gracemere saleyards at the vendor's expense for your convenience, but must leave the Glenlands complex by no later than 5.00 pm on Wednesday 30th October. All care will be taken in delivery, if by the vendors, but no responsibility accepted.

HEALTH & SAFETY

Every care has been taken to ensure your comfort and safety whilst attending our sale. Please take care and be aware when moving through the animals. Whilst we take every precaution to minimise hazards, cattle can be unpredictable and have a mind of their own. Children are not permitted in the pens.

BRAND

A PRODUCT OR SERVICE THAT HAS A UNIQUE AND IMMEDIATELY RECOGNISABLE IDENTITY THAT DISTINGUISHES ITSELF FROM OTHERS WITHIN ITS INDUSTRY.

THE CLIENT ASSOCIATES THE BRANDED PRODUCT WITH PARTICULAR ATTRIBUTES SUCH AS VALUE, QUALITY AND TASTEFULNESS.

SIRE REFERENCE

BRC DUTTON 376/8 (H)

Dutton is without doubt one of, if not the most genetically strong sires that has ever been used in the history of Garglen. A big statement, but the proof is in the progeny. Vigorous from birth, Dutton calves power on, producing top weight gains from weaning and they never look back. Every calf, no matter the breeding of the dam, is stamped by this mighty sire. From their powerful heads through to their impressive body shape, muscle development, correct structure and faultless underlines. Dutton progeny are impressive from birth, and are producing EBV growth figures that link genotype to their very impressive phenotype.

CARINYA KIRKWOOD 11/606 (H)

Carinya Kirkwood is an Australian bred sire that is known all around the world. Have you ever seen a better head on a Brahman Bull? As our wise old fathers taught us, "If the head is good, the rest will follow". Truer words never spoken. Kirkwood progeny, no matter what herd they come from, are all equally impressive. The thickness of body, amount of meat and muscle, structural correctness and great disposition make Carinya Kirkwood progeny a "must see". Put a tick beside these lots. They will not disappoint.

WILLTONY BLUNDSTONE 1031 (PS)

Purchased in partnership by Carinya and Garglen Studs, Willtony Blundstone has been a milestone sire for both herds. He is a big, long, sirey type, producing robust calves that will carry on with the job. Blundstone is just a great "doer". He dominates his females as a bull should, is a great calf getter, but still comes in after the season looking great. He can maintain his mature weight of around the tonne quite easily. Blundstone male progeny have realised exceptional averages for both studs at auction. Females are almost 100% retention for in herd use, as they are just so versatile in any mating program. Blundstone daughters have found their place as donor females at both Carinya and Garglen.

NCC DAKOTA (H)

Garglen was fortunate enough to purchase the exclusive Australian semen rights to Dakota. Another outstanding son of Carinya Kirkwood that oozes presence, masculinity, muscle and growth.

SIRE REFERENCE

NCC CROCKETT 4901 (H)

Crockett was purchased in 2021 from the Annual NCC sale for \$130 000. An investment that is certainly proving its worth, with the first offering of Crockett progeny this year. This moderately framed beef machine is producing the goods at Garglen, with outstanding calves in each year's calf drop. Crocketts progeny display similar traits to those of his famous sire, Carinya Kirkwood, who was the sire of 6 sons at the Carinya Garglen Sale 2023 that realised an average price of \$25583.

NCC BANKROLL 4687 (H)

Displays all the characteristics of a Carinya Kirkwood son that the Brahman industry has become accustomed to. That impressive head is what grabs your attention immediately, then follows through to the perfect body shape, standing on good structure and terrific bone to support the amount of meat and muscle that these young bulls display. They will not disappoint and will be an asset in any breeding operation seeking a strong industry relevant sire.

CARINYA M ARIAT 1323/0 (PS)

A retained sire by the incredible Wiltony Blundstone and a full brother to Carinya M Tombstone. Both of these sires were kept as we believe they are an incredible representation of Blundstone, but more so because of the strength of their mother. Carinya M Jacqueline is an incredibly functional and fertile cow. Ariat stamps his calves with the consistency the Carinya cattle are known for. We can't fault the polled heads on them, nor the muscle and thickness. Ariat is a sire from tip to tail and incredibly active. Structurally he is very strong and even in a dry season he keeps his condition. The Carinya Garglen Sale 2024 is your chance to get your hands on the first crop of calves by Ariat.

NCC BRIGADIER 4144 (H)

Brigadier is a large framed, up standing bull that breeds a solid phenotype into his calves, and stamps a beautiful head on them every time. Over our polled cows he has done an exceptional job. He is a full brother to another sire we purchased called NCC Brewster, by the world renowned JDH Massai. We have retained and are using a large amount of females by Brigadier due to their femininity and phenotype. His calves will catch your eye!

SIRE REFERENCE

JDH MR ENCINO MANSO 612/6 (H)

A JDH Hawk Manso 666/5 son and out of a JDH Atlas cow. Carinya purchased the Australian rights in Encino in 2016 and he has certainly made a huge impact on our breeding program. Encino was selected for his bone, length, tidy underline and overall structural correctness- his impeccable temperament is just the bonus. He puts his stamp on all of his progeny, that's for sure!

NCC SUGARWOOD 765 (H)

Sugarwood needs no introduction to the Australian Brahman world, having consistently sired high money earning progeny thus far. He breeds the bone, thickness and scale into his calves, not to mention their temperaments. Sugarwood and his progeny to date have high libidos and are real calf getters. Carinya has retained a number of Sugarwood sires such as Carinya Boynewood (Sire of Carinya Wickham sold for \$110,000) and Carinya Lockwood (Sire of Carinya J Ladbroke It \$130,000 & Carinya Milwaukee - \$105,000). Sugarwood's sons and grandsons have caught the eye of renowned brahman breeders.

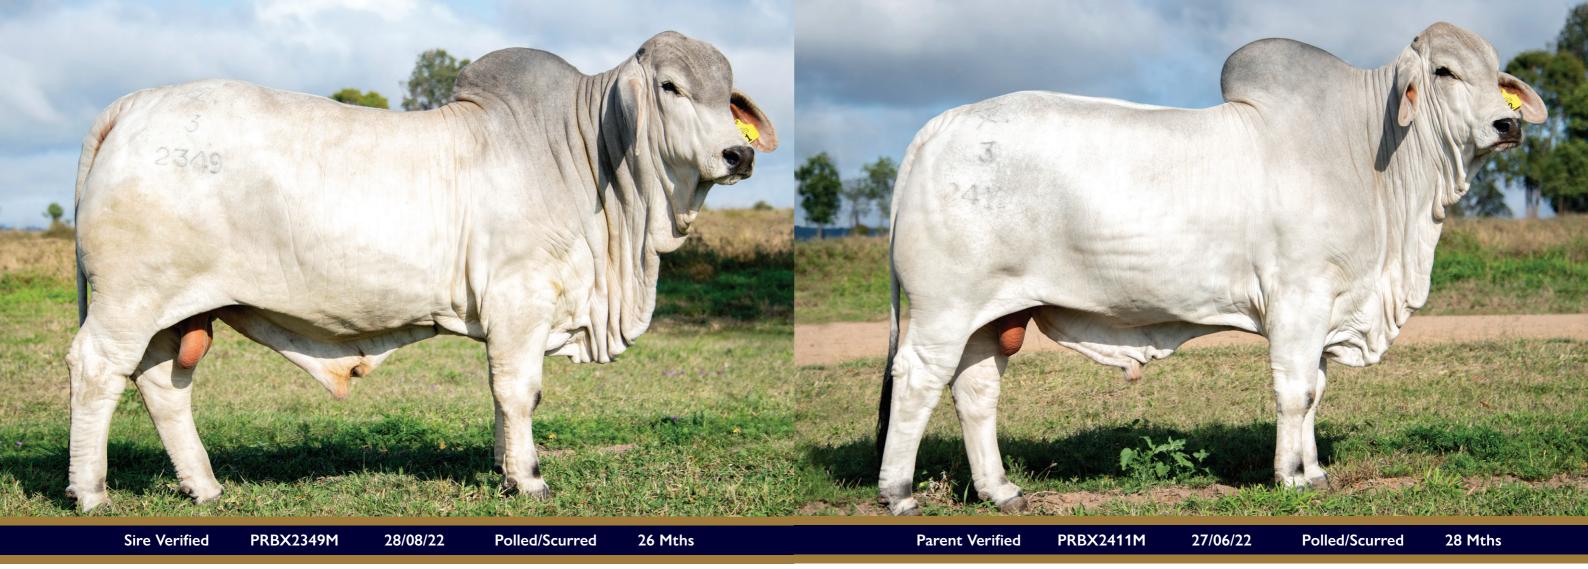

CARINYA M TOMBSTONE 1108/9 (PS)

Tombstone is the first retained Blundstone son, kept because of the strength of his mother. We have been so impressed with his dam, Carinya M Jacqueline that we have kept the first two natural bull calves out of her. Tombstone, like his sire is large framed with a tonne of bone. His progeny is proving to show the same great traits as their father and grandfather alike, with the added bonus of majority being polled.

2AM SERGIO 7150 (IVF) (PS)

2AM Sergio has a strong poll sires head, tidy underline, power, thickness and softness. Sergio is in the top 10% for both 200 and 400 day growth. His temperament is faultless and presence undeniable, a real credit to the 2AM stud and one of the favourite up and coming sires at Carinya.

GARGLEN

Johnstone X2349 (PS)

FBC D ARMSTRONG MANSO 596D (ET) (H)
GARGLEN 8899 (H)
GARGLEN 7954 (H)

Selling 3/4 share full possession. Bull sells with 50 straws of semen Semen retained for in herd use only. Willtony Blundstone progeny never disappoint, but Johnstone takes it to the next level. If it is figures and phenotype combined that you are looking for, look no further. Johnstone is in the top 1% of the breed for 200, 400 and 600 day growth and CWT and the top 10% for EMA and RBY. His dam has a healthy intercalving period of 6 calves @ 438 days. This young sire is a high performing, profit driving Sire, and will command the attention of Stud and Commercial breeders alike.

TGD LADY MANSO 369

GARGLEN 7259 (H)

And the quality continues. This polled son of Mr US Polled Evolution 409/5, Garglen Addiction, is addictive. He displays all the right figures with above breed average scores for 200, 400, 600 day growth, EMA, RBY and IMF and presents with excellent phenotype. What a combination. Addiction's dam has great intercalving period of 4 natural calves @ 421 days before making her way into our donor program. She was the dam of Garglen Barron, sold for \$70 000 in 2021. Growth, fertility and phenotype rolled into an impressive package, with figures to back him up. His polled head and gentle disposition complete the package to perfection.

CARINYA M MISS 510/5 (H)

CARINYA DURBAN (H) CARINYA MARCY (H)

A polled Dutton son that's going to get you growth, meat and scale. With Noble and Blundstone in the pedigree and based off Bass' EBV's, the growth traits in this powerhouse of a bull should be passed on. These traits combined with the femininity of the Blundstone females makes this bull a genuine stud sire. Bass has sire appeal written all over him from tip to tail. The way he stands up tall and proud with his long neck extension, strong topline, very tidy sheath and structural integrity is not something to be passed up. His mother is a young donor cow by Blundstone that we think a lot of. Bass is in the top 1% for 200, 400 & 600 day weights and also top 1% for carcase weights.

The first Carinya M Ariat bull to be sold. Ariat being a full brother to Tombstone, a genetic package that is proving to be prepotent within our herd. Park your peepers on this bull. "Carinya L Roper", a name we believe we'll be hearing for years to come. He's snow white and he ticks all the boxes; Deep, stands on more than adequate bone, a beautiful polled head that Ariat stamps his calves with, as neat as a pin, thick and the temperament to go with it. Roper represents the direction in which we are striving at this point in time. A natural calf out of Carinya L Rain, who is by Warraka Walton - a bull that made an icredible impact on our female battery. She has quickly become a standout donor with a DCI of 379 days and never missing a calf. Don't miss the opportunity to get Roper in your paddock.

GARGLEN CARRIBEAN (ET) (H)
GARGLEN 8121 (H)
GARGLEN 5462 (H)

The fertility in this young bull's pedigree is outstanding. His dam has an intercalving period of 406 days for 7 natural calves and her first calf was born at 823 days. Garglen Lydia was pulled into our donor program for that reason. Add to that, Trilogy is above breed average for all growth figures, RBY and IMF. Dutton progeny at the CG Sale 2023 were consistently in the top 5% for growth. As a bonus, this son of Dutton carries that amazing body shape and excellent sheath. Trilogy has been our highest daily weight gain bull on grass at 1.25 kg/day.

Kirkland is a result of a cross made in heaven. Carinya Kirkwood and Massai Empress 6090 just clicked. The beautiful silver blue pigmentation and the way he stands square and proud makes him every inch a sire of the future. Moderate frame, structural correctness and presence are outstanding features of this bull. 6 progeny of Carinya Kirkwood realised an average price of \$25 583 at our 2023 Carinya Garglen Sale with full brother to Kirkland and Boswood, Garglen S Oliver realising \$40 000. Suitable for heifer joining.

CARINYA 1252 (H) CARINYA 2/281 (H) If you're after a strong dehorned bull with a polled pedigree, look no further than Cruz. Phenotypically very hard to fault; he is thick & soft, has an eyecatching head, depth of body and an immense amount of bone. A natural calf out of Carinya M Polled Sapphire, who is the matriarch of the Carinya M herd. Some of the best and most consistent cattle we have bred have stemmed from this cow. She has had 8 natural calves at 408 DCl and still breeding today. Crossed with Tombstone - well it is a match made in heaven. If you're after scale, dimension and meat in your progeny this bull is a must inspect. He is in the top 5% across all his growth figures and carcase weight.

IMPROVED PREGNANCY RATES 12% IN BREEDING FEMALES¹¹⁻⁵

HALVED VACCINE RESPONSE TIME FROM 56 DAYS TO 28 DAYS⁶

HIGHER SPERM CONCENTRATION AND BETTER SPERM QUALITY8-11

"MULTIMIN" IS HUGELY BENEFICIAL TO OUR OPERATION.

We use Multimin in our cattle breeding operation. Since treating our calves at branding we have seen on average a 10 kg improvement in weight gain. We give our calves a second Multimin at weaning which helps them through their first winter, the toughest period of their lives, when their immunity is most challenged. Replacement heifers are treated 8 weeks prior to joining, we have seen our preg test rate jump from 90% to 97% after an 8 week joining period, even in dry years. This year 88% of first calf heifers calved on the first cycle to the bulls.

MORE CALVES x INCREASED WEIGHT = MORE PROFITS "

If you remember the \$55,000 Carinya B Esteban that was sold to Chatfield Brahmans here last year you will probably have dejavu looking at Memphis. A very similar bull to Esteban. He is polled and stands on heavy bone. You could put Memphis out with red or grey cows and he would excel. Another full brother in the sale at lot 47. Historically, the Encino/1140 cross has bred large framed, long, good doing cattle and the figures reflect that, Memphis being in the top 1% for both 200 & 600 day weights and top 5% for 400 day weights. Carinya B Kenzie is consistently one of the first cows in the paddock to calve, with a DCI of 379 days.

POLLED MAP DIAGRAM

Below is a Poll Map Diagram to assist you in understanding the breeding crosses required to breed the degree of the polled gene you are seeking. Industry trends are tending towards poll genetics. At Carinya and Garglen, we are embracing this idea, and are continually searching for exceptional polled sires. Having said that, we will not seek out a single trait on a potential herd sire that does not meet all other criteria requirements first.

Bone, bone, bone, covered in soft skin from top to bottom. Rollstone is a natural calf of Garglen X1240 (Ps), one of the most outstanding donor cows we have at Garglen. A daughter of Willtony Blundstone (Ps) has offered us unlimited breeding options and has been successful with many different crosses. Bankroll progeny are impressive. He produces strong masculine bull calves, yet very feminine heifers. Once again, growth and fertility feature well in this package. Not recommended for heifer joining.

we construct the construction of the construct

We've had a very long and successful relationship which spans over 40 years with the Bishop family and Garglen Brahman Company.

Our 750 head breeding herd started with Braford cattle and we were looking for a more cost effective breeder for our high tick challenged country at Woolooga. This was our introduction to Brahmans through Percy Bishop. It was a defining moment in the start of our new venture breeding brahmans and to this day we receive outstanding comments on our cattle, and always receive above market prices for our weaners.

We're very confident in backing the solid temperament and constitution of their bulls and since we made the move west we can also say their cattle thrive in any environment. The kind nature and durability strongly pass onto their progeny making mustering and handling a pleasure.

Garglen have been great to deal with and they wholeheartedly back their product giving us peace of mind. We have established a great relationship with the family and we are very vocal in recommending Garglen to anyone who finds interest in the breed or results we've managed to achieve over the years.

Brian, Pam, Peta and Mitch Dray (Bongmuller Partnership)

WE'VE GOT YOUR BACK

All care has been take to guarantee breeding ability of sale lots, through use of testing requirements available. However, we know there can be other issues with young bulls. Carinya and Garglen both offer a full breeding guarantee, if it is proven by way of a veterinary certificate within 6 months from the date of the sale, that there is a fertility or breeding issue with a lot you have purchased, provided that issue was not caused by post sale injury, misadventure, disease, mismanagement or negligence.

By arrangement, any claim may be replaced by an animal of comparable value, or given as a full credit of the purchase price, less the salvage value of the animal following the Carinya Garglen Sale. Each lot has been mutually inspected by the vendors and sale agents. All industry standards have been met, along with the high standards we practice within our individual breeding programs. Be assured that we have adhered to stringent breeding principals of producing cattle with good structure, soundness, temperament, bone meat, muscle and volume. We are very proud of the consistency of this group of young sires.

We Stand 100% behind our Sale Bulls

LIVESTOCK AUCTION TERMS AND CONDITIONS OF SALE

- CHAPTER ONE PRELIMINARY

 1. (a) A vendor is bound by these terms and conditions by offering livestock for sale by auction.
- (b) An agent (which includes an auctioneer) is bound by these terms and conditions by conducting an auction sale.
- (d) Competition and Consumer Act (Cth) 2010

- In these terms the expression auctioner, agent, buyer and vendor respectively includes the servants, contractors and agents of each of them. The auctioneer, agent, buyer and vendor shall be wholly responsible for the acts and omissions of their respective servants, contractors and agents. The term "auctioneer" includes, so far as the law and context permits, the vendor's agent.
- The following applies in interpreting these terms and conditions:
- The following words have the following meanings:
 - Fees means all levies, charges, fees, costs and other expenses incurred or relating to these terms and conditions and the sale and purchase of livestock including, without limitation, transaction levies, yard and weigh dues, cartage, advertising and rebates, and whether paid for, or incurred, by the agent!

Livestock means animals auctioned pursuant to these terms and conditions; and

- Price means the amount at which the lot has been sold to the buyer referred to in clause 7 of these terms and conditions $\,$
- plus any GST added in accordance with clause 12. These terms and conditions are subject to legislation or regulation in the State in which the auction is conducted and in the event of any the state of the state in which the auction is

- CHAPTER TWO STANDARD TERMS OF SALE

 4. Subject to any reserve price, and to the right, prior to the fall of the hammer, of the vendor to withdraw any lot without declaring the reserve, the highest bidder shall be the buyer.
- The auctioneer has the right to bid on behalf of the vendor provided that right is notified prior to the commencement of the sale and is subject to State law.
- A bid cannot be made or accepted after the fall of the hammer unless, in accordance with clause 8, the auctioneer decides to put the lot up again.
- In the event of a disputed bid, the auctioneer is the sole arbitrator of the successful bidder or the auctioneer may decide to put the lot up again. The auctioneer decision is final.
- The auctioneer may refuse to accept any bid which, in the auctioneer's opinion, is not in the best interest of the vendor and need not give reasons for doing so.
- A bidder shall be deemed to be a principal unless, prior to bidding, the bidder has given to the auctioneer a copy of written authority to bid for or on behalf of another person.
- The successful bidder at a livestock auction sale must give to the auctioneer at the fall of the hammer:
- the bid card number which identifies the purchaser; or
- (c) the name of the person on whose behalf the successful bid was made;
- (d) the Property Identification Code (known as the "PIC") of destination. The auction shall be conducted on the basis that the bid price shall be exclusive of Goods and Services Tax (GST). GST shall be added after the fall of the hammer for those sales subject to GST.

- (b) That the purchaser will obtain title on completion of the purchaser's obligations under this contract including payment.
- obligations under this contract instancing prayment.

 If a buyer does not comply with any of these terms and conditions, which includes the requirements of State law, any livestock twocked down to that buyer may be re-sold by public auction or private contract in whatever lots and manner the auctioneer decides. The ro-sale may be with or without notice and shall be at the buyer's risk. The buyer is responsible for all loss and expense arising out of a re-sale and is not entitled to any resulting profit.
- The buyer of livestock must pay the agent the full amount of the purchase price in immediate funds on receipt of a tax invoice. Payment is required prior to delivery unless some other time for payment is specified in an agreement between the buyer and the auctioneer that was made before the fall of the hammer. If, before delivery, payment has not been made then clauses 20 to 23.
- 17. (a) Cattle sold on a liveweight basis that are weighed pre-sale are at the risk and expense of the buyer upon the fall of the hammer.
- (b) Cattle sold on a liveweight basis that are weighed post-sale are at the risk and expense of the buyer immediately after weighing.
- (c) All livestock other than cattle sold on a liveweight basis are at the risk and expense of the buyer upon the fall of the hammer.
- (a) Subject to this clause the sale is complete on the fall of the hammer.
- (b) The time for rejection is the time commencing at the fall of the hammer and ending at the first of:
 - departure of the animal from the purchaser's delivery pen; or

 - a. in the case of pre-sale weighing, sold; or
 - b. in the case of post-sale weighing, weighed.
- agent has disclosed me reason for rejection to that buyer. This subclause applies only to cattle which are sold in Queensland at auction for slaughter. The agent has responsibility for the prevention of loss or escape (but not death, sickness or injury) of those cattle from the time of the fall of the hammer, for delivery to and from the scales, to the buyer's delivery pen and onto the buyer's cominated transport. This responsibility ends at the earlier of those cattle boarding the buyer's nominated transport or sunset on the day after the sale. This

- subclause does not apply if the agent makes an announcement to that effect prior to sale.
- Subject to the right of rejection in Clause 18, all conditions and warranties expressed or implied by law are hereby excluded from the prior to the commencement of the sale and are sold with all faults, if any. No compensation shall be given for any faults, imperfections, errors of description, number in or of any lots sold or otherwise.
- Any claim or objection arising out of an error or misdescription in the provision of relevant information in terms of legislation or regulation makes by 500pm on the seventh day after the fail of the hammer, holipidition, requisition or claim against the vendor or agent in respect of such error or misdescription can be made after that time.
- Any statements made by the vendor or the auclioneer whether in writing or orally to the effect that any female has been pregnancy tested or scanned positive shall mean and require only that a certificate in writing shall be supplied to the buyer signed by a qualified veterinary surgeon or certified scanner certifying that the said female has been tested or scanned on the date specified in the certificate and that in the opinion of the surgeon or scanner was pregnant on that date.
- For slaughter cattle, the agent undertakes to make every reasonable effort to ensure that any NLIS cattle device number is transferred from the saleyard PIC to the purchaser's PIC on the NLIS database no later than midnight on the day of the sale.
- (e) For other slaughter livestock the agent undertakes to make every reasonable effort to ensure that the NLIS information is transferred from the saleyard PIC to the purchaser's PIC on the NLIS database no later than midnight on the day of the sale.
- Where livestock have a food safety or market eligibility status derived from the National Vendor Declaration (NVD) and/or the NLIS/ERP database, the agent will inform the buyers by presale catalogue and/or announce the status prior to the offering of those lots.
- - (a) does not acquire title to the livestock;
 - holds the livestock as bailee only for the vendor;
 - (c) must act in a fiduciary capacity in its relationship with the vendor;
- is responsible for the safety and well being of the livestock;
- (f) may make a bona fide sale for market value of any or all of the livestock. As between the buyer and the subsequent buyer, the sale shall be made by the buyer in its own name and not as agent for the vendor, however as between the vendor and buyer, the sale shall be made as ballee and agent for the vendor, and

- (a) Clause 20 creates a registrable security interest under the Personal Property Securities Act (Cth) 2009 (PPSA);
- (b) the Purchaser acknowledges the rights of the Seller (and/or the Agent if Clause 25 applies) to register a financing statement under the PPSA with respect to the security interest created by this clause;
- (c) the Livestock are collateral for the purposes of the PPSA;
- (d) to the extent permitted, the Purchaser waives any right the Purchaser has under the PPSA to receive notices; and
- The buyer may not make any claim against the vendor for actions by the vendor or its agent under clauses 20 or 21 and indemnifies the vendor and its agent against any loss, damage, costs, expenses, penalties, fines or claims suffered by the vendor, the agent or any person or entity arising from the vendor exercising its rights under clauses 20 or 21.
- 23.1. Clause 23 applies whenever the agent pays the vendor before being paid by the buyer, which the agent is not bound to do. The agent is then the del credere agent of the vendor at law.
- 23.2. The vendor hereby gives notice to the buyer of the assignments referred to in clause 23.3.
- The vendor acknowledges that the agent may take enforcement, repossession or other action to recover any livestock for which the buyer has not paid in full, or the Price of such livestock, owing by the buyer under these terms and conditions:
 - (a) when this clause does not apply, as agent of the vendor (including by reselling the livestock); and
 - when this clause applies, on the agent's own behalf exercising the rights of the vendor by subrogation or assignment under these terms the livestock has not passed to the agent, by selling the livestock as agent of the vendor without the agent having to account to the vendor for the proceeds of sale.
- The agent may at any time, assign, transfer, securitise or otherwise dispose of all or any of its rights under these terms and conditions and any debts created pursuant to it (including, without limitation, the rights assigned to it under pursuant to clause 23.3).
- do at any time and in any manner as the agent thinks fit all acts necessary or desirable to perfect or improve the rights and interests afforded, or intended to be afforded, to the agent under these terms and conditions; and
- (b) appoint one or more sub-attorneys to do anything that the agent may do as the vendor's attorney.
- 23.7. These terms and conditions do not render the agent liable to the buyer as vendor nor entitle the buyer to set off against the agent any right the buyer may have against the vendor or otherwise. 23.8. The buyer acknowledges that the provisions of this clause 23 are intended solely for the benefit of the agent (and its assigns) and the vendor. The liabilities and obligations of the buyer will not be in any way affected:
 - by this clause 23, other than as it expressly provides; or

 - (b) by the failure of the agent or the vendor or either of them to comply with the terms of this clause 23.
- 23.9. The buyer must pay all amounts payable to the vendor or the agent under these terms and conditions without any deduction, withholding, set off or counterclaim whatsoever, whether the benefit of a deduction, withholding, set off or counterclaim is alleged to exist in favour of the buyer as against the vendor or the agent in any capacity whatsoever or any other person including any assignor of the vendor's or the buyer's interests under these terms and conditions. 24. (a) The agent agrees that he is liable to pay to the vendor the Price, less such commission as is agreed between the vendor and the agent, and in the absence of any agreement such amount as is reasonable, and less the Fees that are payable by the vendor that were incurred by the agent on behalf of the vendor in relation to the sale of the livestock.

 - agent on behalf of the vendor in relation to the sale of the investock. In the event that the buyer pays the Price or part of it direct to the vendor then the agent has no liability to the vendor for the amount of such payment. Further, if the agent pays the vendor any amount which the buyer also pays direct to the vendor in respect of the same livestock, then the vendor must repay the agent that amount and the agent may debit that amount to an account held in the name of the vendor by the agent. Regardless of whether or not a sale has occurred the agent may, but is not under obligation so to do, instead of deducting payments owed to it by the vendor, debit the amount of the commission and fees to an account held in the name of the vendor by the agent.
- 25. (a) The auctioneer has been retained by the vendor as auctioneer for the purpose of selling the livestock comprised in the lots. The terms of

The vendor, the agent and the buyer agree to comply with their several duties under the Australian Animal Welfare Standards and Guidelines for the Land Transport of Livestock and further to consign, manage, receive, transport and handle livestock in accordance with any other or additional requirements of animal welfare legislation specific to the jurisdiction in which livestock are consigned, managed, received, transported and handled in the course of the autotro process.

- CHAPTER THREE VENDOR WARRANTY FOR CORRECT PRESENTATION AND DECLARATION

 26. This chapter applies only in the case of livestock and their companion animals sold at auction for slaughter when the buyer is the slaughterer and the livestock are transported direct from the sale yard to the meabursh at which subsequently results the livestock to a slaughterer. A slaughterer is any person who pays the AMPC Processor levy.
- The warranty of a vendor is that livestock and their companion animals offered for sale at auction:

 - carry an NLIS device in accordance with State law;
 - in the case where a representation has been made in the pre-sale catalogue that the livestock have particular characteristics or are fit for a particular purpose or market, and such representations are based on information in any document, the livestock will have those characteristics or will be fit for the particular purpose or market, and
 - all information in any document provided by the vendor is true, complete and correct in all material respects.
- In the event of a breach by the vendor of the vendor's warranty and provided such breach is notified by the buyer to the agent by $5.00 \, \mathrm{pm}$ on the $7^{\rm m}$ day after the fall of the hammer then the buyer is not liable to pay the portion of the Price of such of the vendor's livestock to which the breach applies.
- However if the breach by the vendor is such that the livestock are not rejected outright but are instead downgraded then the buyer will pay the value of the livestock at their next highest and best use.
- 30. In the case of a breach by the vendor of the vendor's warranty then the vendor will also be liable to the buyer for any further losses which the buyer might establish but the buyer will take all reasonable steps in co-operation with the agent and vendor to mitigate both the effect of the breach and the amount of any loss.
- (a) the buyer will be entitled to delay payment for the price of all livestock in that lot only; or
- in that ict only; or the vendor's cost, of collecting the companion animats, if allowed by law; or of having the livestock saughtered in which event the risk of further condemnations will be that of the vendor. Where product integrity is potentially jeopardised, the Processor has the right to refuse slaughter and send the livestock back to the consigning property at the vendor's con-
- any error, by the auctioneer, of transcription of information from the NVD completed by the vendor to the pre-sale catalogue or the buyers post-sale summary;
- any failure by the auctioneer to announce prior to bidding, or disclose in the pre-sale catalogue, that the vendor has failed to provide a NVD that is complete in all material aspects.

CHAPTER FOUR - OWNERS RISK FOR CONDITION OF CATTLE

- Owners risk reflects the producer's responsibility to provide slaughter cattle for sale that are fit for human consumption. Cattle are fit for human consumption if they are not condemned as unift by government. Owners risk setablishes, by the relevant government certificate, existed prior to the fall of the hammer.
- Owners risk protection is available to the buyer of cattle to which this chapter applies if all of the following are satisfied:
 - a certificate is issued by government which states the relevant NLIS RFID tag number and PIC, the date of the certificate, the reason for condemnation and that the reason for condemnation existed prior to the fall of the hammer;
 - the certificate is received by the selling agent either in its original form or by fax or electronic communication in the form of data, text or imaging by $5:00 \,\mathrm{pm}$ on the T^0 day after the fall of the hammer, and
 - (c) if the condemnation is due to chemical residue the certificate follows testing in a government approved laboratory which establishes maximum residue limits in excess of the Australian limit.
- Owners risk does not apply, and the buyer must pay for the cattle, if the reason for condemnation is any of bruising, fever, partial condemnation or emaciation.

CHAPTER FIVE - NOTICES REQUIRED BY LEGISLATION

Penalties for collusive practices. It is an offence against the Property, Stock and Business Agents Act 2002 for a person to do any of the following as a result of a collusive practice, or to induce or attempt to induce another person by a collusive practice to do any of the following:

- i) to abstain from bidding; or
- (iii) to do any other act that might prevent free and open competition
- Severe penalties may be imposed on persons convicted of collusive practices.

The auctioneer has the right to make one bid on behalf of the vendor if the auctioneer clearly and precisely announces that fact prior to the sale. Tasmania Legislation. An auctioneer conducting a public auction must not appear to acknowledge the making of a bid if no bid was made. A person must not participate in collusive practices by way of making or receiving an unlawful promise to abstain from bidding, not to bid except to a limited extent or do any other thing which may prevent free and open competition.

WA Auction Sales Act 1973 s31 NOTICE. It is an offence to:

- offence to: induce or attempt to induce another person to abstain from bidding by means of a promise, expressed or implied, that the other person will have the right to elect to take over as buyer or to toss or draw lots to establish who is to become the owner;
- abstain or agree to abstain from bidding as a result of such a promise
- (iii) knowingly enter or permit or cause to be entered in the auctioneer's record any name other than that of the actual successful bidder:
- enter in the auctioneer's record the name of the buyer other than that of the actual successful bidder; or in the case of successful bidder supply wrong information as to the name of the buyer to the auctioneer or to any person, firm or corporation on whose behalf the sale is conducted.

The vendor, or any person on behalf of the vendor, or the auctioneer have the right to make no more than three bids.
